

## It's all about the kids...

We believe that children are the most important blessings God gives. We also know that all preschoolers are unique and grow through stages at different rates. That's why we use a

variety of approaches to enable them to learn the way

God created them! We offer a loving, Christian

"Jesus loves the little children, all the children of the world..."

environment in which to learn of Jesus' love and to experience mental, social, physical, spiritual, and emotional growth with other children their age. Our prayer and our goal for your preschooler is to experience God's love through our staff and through our Bible based curriculum. Our desire is to guide preschoolers at an early age, so that they know that they can "say a good word for Jesus" wherever they go and whatever they do in life.

## *Mother's Day Out*

Exceptional beginnings for early learners

Tuesday & Thursday  
9:00 a.m. - 2:30 p.m.  
6 weeks - 5 years

## Touching the Future

Our mission is to nurture **preschoolers** so that they fall in love with learning and with God and Jesus right from the start... to instill a biblical worldview for a solid foundation.

# Curriculum

Our daily curriculum is based on a biblical theme which includes Bible stories and memory verses. Because children learn through work and play, we offer ample time for both structured activities and free play. We focus on academic readiness by preparing them to be ready to read, write and perform basic math skills when they enter Kindergarten. The Abeka Curriculum is used in our Pre K and older Preschool classes. An introduction to Music and Spanish are also incorporated into the preschool day. We know that in order to learn, preschoolers must first experience it...see it, hear it, act it out, sing it, dance it, jump it- incorporating all of their senses.

Yummy for my tummy!!

## HOT LUNCHES

We provide a nutritious hot lunch daily. We know that healthy eating is a key to learning and growing. Our meals are preschool and parent friendly. A morning snack is also provided.
